

How to Brainstorm for an ExploraVision Project Idea

Does your family or community face any issues (e.g., health and environmental issues, etc.)?

What stories have you read recently made your concern about your future (e.g., immigration, air pollution, volcanic eruption, earthquake, etc.)

What problem do you want to solve (e.g., family health-issue, population growth, water shortage, etc.)?

What technology currently used can be improved?

What is your proposed an ExploraVision project idea?
