

A Brainstorming Activity for an ExploraVision Project Idea

1. Begin with each student writing down answers to each of the following questions. (5 minutes)
2. Have students share with their group.
3. Group members write all answers.
4. Have each group choose the idea they want to use for the competition.

What is an issue your family or community faces (e.g., health, environmental, food, or safety issues, etc.)?

 - What stories have you read or heard about recently that make you concerned about your future (e.g., immigration, air pollution, volcanic eruption, earthquake, etc.)?

 What problem do you want to solve (e.g., family health issues, population growth, water shortage, etc.)?

 What current technology that you use can be improved?

 What is your proposed ExploraVision project idea? Begin your answer with: I want to develop a new _____ that will _____.
